May 14, 2018

Subject: Gun Violence Prevention

To the Governor's Office:

ERPO is going to be voted in the house soon. Speaker DeLeo just announced his support for the bill on Wednesday of last week. We hope it passes the senate and want the Governor to (a) support it publicly and (b) sign it when it comes to his desk.

On CCR, it passed the House of Representatives. If it gets any life at all, such as going to the senate or anything else, we want Governor Baker to organize other governors and come out against it. This is not a MA law but one that will make all of our MA laws obsolete.

Sincerely,

Rina Schneur
